A few examples of how to position Fazup.
The Fazup passive antenna is positioned specifically, depending on the model of your smartphone. The Fazup antenna can be centered, off-centre or it may even follow the shape of the edge of the smartphone. Check out how Fazup should look when applied on your specific smartphone model at www.fazup.com/pose.

Einige Beispiele zur Platzierung von Fazup:
Die passive Fazup-Antenne hat für jedes Smartphone-Modell eine eigene Position. Fazup kann mittig oder versetzt liegen oder auch entlang der Kante Ihres Smartphones verlaufen.

In order to guarantee Fazup's maximum lifespan, it is highly recommended to use a protective case. / Um die maximale Lebensdauer von Fazup zu gewährleisten, ist es sehr empfehlenswert, eine Schutzhülle zu verwenden.

In most cases, the partial protective case does not cover the edge of the iPhone. Therefore, it doesn't protect the edge of the patch when it goes over the curved edge of the smartphone.

Eine Handyhülle mit großzügigen Aussparungen an der Unterseite bedeckt den Rahmen eines iPhones nicht vollständig. Wenn Fazup auf Ihrem Smartphone über die abgerundete Handykante verläuft, ist es in solch einem Case nicht optimal geschützt.

How to find the model reference of your phone.

> Find it in "settings" menu of your mobile phone.

> Reboot your mobile, on some brands the welcome screen provides the model reference (Samsung for example).

The full-body protective case covers the edge of the iPhone. Therefore, it does protect the edge of the patch when it goes over the curved edge of the smartphone.

Sind die Aussparungen der Handyhülle präzise, so wird auch der Rahmen des iPhones von der Hülle umgeben. Dadurch bleibt der Rand des Fazup-Patches geschützt.

So finden Sie heraus, welches Handymodell Sie haben:

> Unter dem Menüpunkt "Einstellungen" finden Sie die Geräteinformationen zu Ihrem Mobiltelefon.

> Starten Sie Ihr Handy neu. Bei manchen Geräten wird dabei zu Beginn die Modellnummer auf dem Bildschirm angezeigt (zum Beispiel bei Samsung).
